MOVEP'2012

December 3-7

Marseille, France

10th International Winter School on Modelling and Verifying parallel Processes

Tutorials

M. Y. Vardi: Logic and Verification
M. Kwiatkowska: Probabilistic systems
J. Esparza: Unfoldings – A partial order approach
K. G. Larsen: Timed automata and their extensions
H. Gimbert: Games for Verification and Synthesis
A. Cimatti & T. Noll: Analysis of Extended AADL Models

Technical Talks

M. Leucker: Runtime Verification
G. Barthe: Computer-Aided Cryptographic Proofs
A. Miné: Abstract Interpretation
A. Bouajjani: Concurrent Systems
R. Pizkac: Software Synthesis
